Assembly manual

Thank you for purchasing our New Ark organizer for Ark Nova.
A digital copy of the manual is available for download on gamingtrunk.com

Tools required

Wood glue Utility knife Rubber mallet

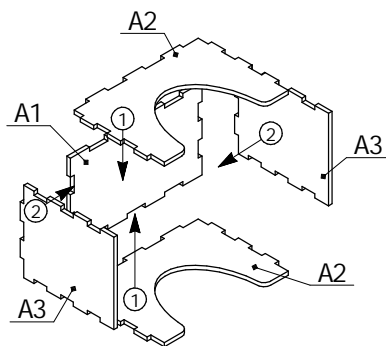

The organizer assembly requires about 90 minutes.
The organizer is designed for no-glue assembly. However, applying some glue on the corner connections will increase trays durability. Due to variances in wood, a rubber mallet or glue might be required to secure the pieces together.

We recommend wood glue or another comparable quick setting, tacky glue.

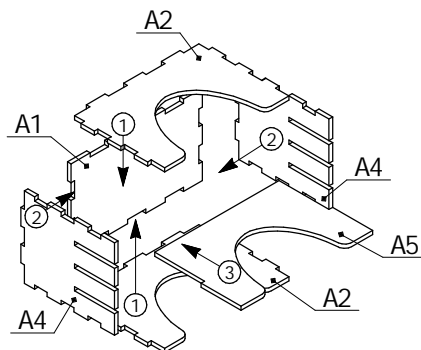

Assembly tips:

- Use utility knife to cut parts out of the sheets. Panching parts may cause wood splitting.
- Some connections may feel too tight. Use of a rubber mallet is recommended to set the parts on their place.
- Due to the cutting process, some pieces may vary slightly. If the piece is symmetrical reversing it may help
